Water Saving Tips

- Watch for leaks. Pay attention to the SIGNS AND SYMPTOMS of plumbing, pool and spa leaks as outlined below. Do a routine indoor/outdoor check every three months, or call professionals to do one for you.

- Check all faucets for drips. If a drip fills an 8-ounce glass every quarter hour, it will lose about 180 gallons per month. Thats 2,160 gallons a year, enough for 30+ showers or baths! Drips can usually be fixed by replacing inexpensive washers or valve seats.

- Install flow restrictors or other conservation devices on all faucets. With these in the shower alone, you can cut your water use from about 5 to 10 gallons per minute to as low as 1.4 to 3 gallons per minute.

- Wrap exposed indoor and outdoor pipes to prevent breakage in freezing weather.

  115 E. Main Street
- **Reedsburg Utility Commission**
  501 Utility Court

Billing Information

Bills for water service are rendered monthly and become due and payable upon issuance following the period for which service is rendered. A late payment charge of 1% per month will be added to bills not paid within 20 days of issuance. This late payment charge will be applied to the total unpaid balance for utility service, including unpaid late payment charges. This late payment charge is applicable to all customers. The utility customer may be given a written notice that the bill is overdue no sooner than 20 days after the bill is issued. Unless payment or satisfactory arrangement for payment is made within the next ten days, service may be disconnected pursuant to Wis. Admin. Code ch. PSC 185.

Combined Metering

For a residential customer with more than one meter on a single service lateral, volumetric meter readings will be combined for billing. For a nonresidential customer, volumetric readings may be combined for billing if the utility for its own convenience, places more than one meter on a single water service lateral. Multiple meters placed for the purpose of identifying water not discharged into the sanitary sewer are NOT considered for utility convenience and shall not be combined for billing. This requirement does not preclude the utility from combining readings where metering configurations support such an approach. Meter readings from individually metered separate service laterals shall NOT be combined for billing purposes.

Private Fire Protection Service

This service consists of an unmetered connection to the main for sprinkler systems.

Monthly Private Fire Protection Service Demand Charges

2-inch or smaller	$4.50
3-inch connection	$8.40
4-inch connection	$14.00
6-inch connection	$28.00
8-inch connection	$46.00
10-inch connection	$68.00
12-inch connection	$90.00
14-inch connection	$112.00
16-inch connection	$134.00

General Service - Suburban MG-2

Water customers residing outside the corporate limits of the City of Reedsburg shall be billed at the regular rates for service (Schedule Mg-1) plus a 25% surcharge.

Payment Not Honored by Financial Institution Charge OC-1

The utility shall assess a $25.00 charge when a payment rendered for utility service is not honored by the customer's financial institution. This charge may not be in addition to, but may be inclusive of, other such charges when the payment was for multiple services.
